

# TPS CASE STUDY

# Playbill UK LTD

## The Project

Playbill is Australian company producing merchandise for theatres and events. They began with programs for the Tivoli Theatre in Sydney in 1958, and are still an independent family-owned company. They handle the global merchandise roll outs for several of the world's biggest theatrical brands including Les Misérables, The Phantom of the Opera, Six, Matilda, and Moulin Rouge.

## The process

TPS have been working with Playbill since 2023. We handle multiple shipments all over the world per month - import/export, cross trade and domestic deliveries, mostly LCL sea freight, but we also do time critical deliveries by air, theatre to theatre. They pride themselves on delivering exceptional service, their products are top quality and they use their attention to detail to partner with major sporting teams, blockbuster musicals, national theatre and music companies.

## Services

Playbill rely on TPS to deliver their products on time and in perfect condition every time - we use the freight service most appropriate for their needs, sea, air or road. TPS can also issue ATA carnets, which is useful for theatre companies wanting to move items between shows all over the world with a temporary customs clearance document.
