

BROADCAST DELIVERY SERVICES,
FOR COVERAGE WHERE AND WHEN YOU NEED IT

EVENT LOGISTICS

BROADCAST LOGISTICS

Not every freight forwarder has what it takes to move bulky yet delicate production equipment around the world.

From the big (53' trailers) to the small (wiring) and everything in between, our experienced team makes sure all the gear arrives safely and on time.

We ensure cameras and equipment are on location for coverage of live events – breaking news, sports and music.

From a chartered load to a single time critical delivery, whether it is high value, time sensitive, bulky or heavy we ship door to door and plan for every possibility.

WHAT THIS MEANS

Putting on an event, exhibition or production requires a lot of logistics. Our experienced team are used to tight deadlines, handling high value items, delivering and installing bulky and oversized equipment.

As well as air freight, we offer hand carry air services for smaller, urgent items, and our door to door delivery ensures equipment arrives in the correct location on time.

We can arrange ATA Carnets within hours.

YOU NAME IT, YOU WATCHED IT, WE SHIPPED THE KIT

Our team can cater for show freight, exhibitions and events with a white glove service.

This includes in-house carnet printing for overseas events, secure short and long-term warehouse storage. One to one account management and an online inventory tracking system enables you to monitor the progress of equipment

OUR EXPERTISE

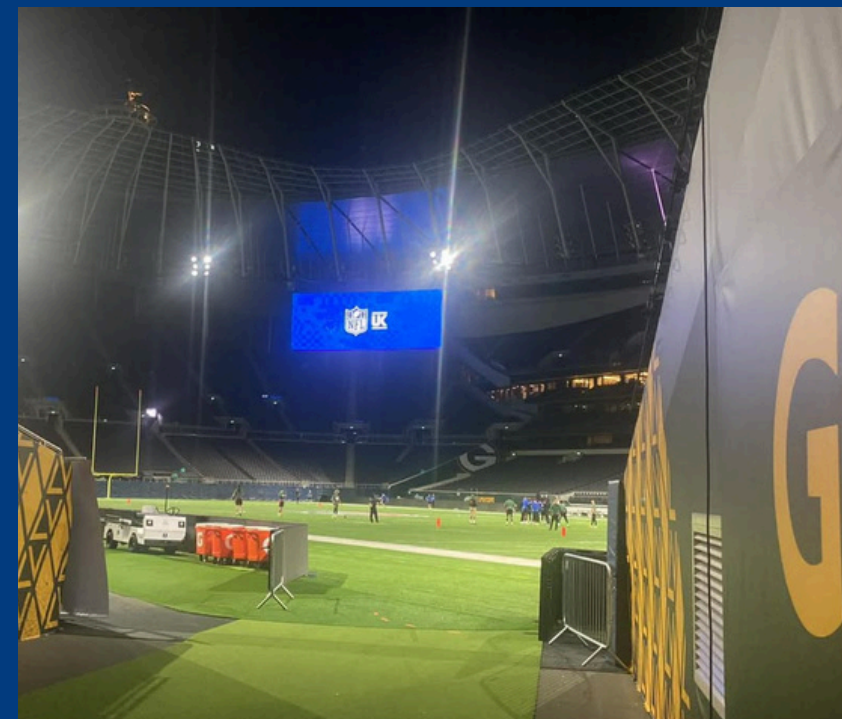

Trading since 2003 we've worked on an incredible variety of projects across the United States, Europe, Asia, the Middle East and South America.

Transporting broadcast kit for coverage of Olympics; World Cups; Super Bowls; Major auto races; International music tours; Royal weddings and news coverage of global events.

END-TO-END LOGISTICS

Air, Sea, Road and Rail

Customs, carnets, crating, unpacking, storing and moving, we cover every element of the shipping.

Single pieces, single pallets or full charters, we deliver around the world, around the clock.

Worldwide Service.

TPS TRANSPORT

We use dedicated vehicles to offer extra peace of mind to our clients, these limit the possibility of damage to products and equipment.

They also enable us to offer delivery within hours, handling is minimal and only by our own experienced team.
